WE HAVE THE TALENT & THE TECH YOU NEED

WHAT WE DO

At Pro•Team, we know that developing the healthy and cost-effective menus your district needs can be time consuming.

Using Health-e Pro menu planning software, we work with you to build customized, fully compliant menus for your district, taking into consideration USDA foods, Farm to School, student favorites and regional preferences.

WHAT'S INCLUDED

Pro•Team's School Menu Solutions™ include the meal planning software, online production records, unique reports, interactive online menus, and support from our team of dietitians. Benefits include:

- Access to a team of experienced dietitians
- Creative and compliant menus
- Saved time, money, and headaches
- Accessible online menus and production records
- Easy administrative review

TESTIMONIAL

"With thousands of meals to be served a day at 18 different sites, we recognized the need to streamline, track costs, analyze nutrient content, and reduce our 80-page inventory report to something manageable."

**-Jamie Wilson, Director of Foodservice,
Superior School District (SSD), WI**
